Table notes

Although the headline ranking figures show changes in the data year to year, the pattern of clustering among the schools is equally significant. Some 340 points separate the top school from the school ranked number 75. The top 11 schools, from IMD to Insead, form the elite group of providers of open enrolment programmes. The second group runs from London Business School to the National University of Singapore Business School, ranked 53. Some 120 points separate these two schools. The third group is headed by Insper.

*Includes revenue from food. **Includes revenue from food and accommodation.

***Aggregate total for open and customised programmes.
